

THERE'S NEVER BEEN A BETTER TIME TO UPGRADE.

UPGRADE TO THE LPX LITE

The LPX LITE combines accurate automation and application with efficient user experience that exceeds expectations - all at an incredible value, saving you thousands compared to the competition.

- USC's patented stainless steel atomizer chamber.
- Store up to 500 customers, seed/chemistry profiles and recipes.
- Save up to 5,000 on-screen or downloadable reports.
- Automate up to four volumetric metering pump stands.
- Automate seed metering wheel or loss-in-weight gate.
- Control with 10" touchscreen or remotely via mobile device.
- Start Wizard organizes data for easy access and efficient treating.
- WatchView customizes which real-time data the operator views.
