

SEED SERIES CONVEYORS

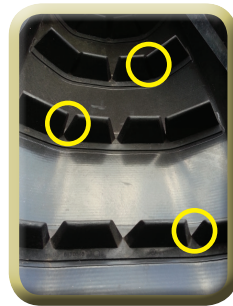

USC CONVEYORS are specifically designed to move seed without damage; eliminating spillage and reducing friction to increase belt life.

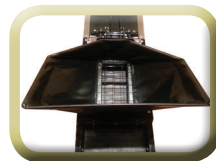

USC's galvanized construction provides for years of dependable use on all conveyors, specifically the Seed Series 16 and Seed Series 20 models. Now, with an industry-leading 3-year warranty on all conveyor belts, we're confident the Seed Series line will be the perfect solution for any operation!

USC SEED SERIES
Seed trays gently transport seed without pinching or damaging.

COMPETITION
Tube-style conveyors create pinch points, damaging seed.

Collapsible Hopper

QUICK FACTS & STATS:

- Re-engineered Seed Series WCCO rubber belt
- Standard 18-month warranty on conveyor
- Industry-leading 3-year warranty on conveyor belt
- Most gentle conveyor designed specifically for seed
- Slower transition times preserve belt life
- Lengths from 20' to 45' caters to specific needs
- Built-in towing hitch for easy portability
- Enclosed frame reduces dust and spillage
- Retrofit new belt on existing S2000 and S3000 models
- No need to lower Seed Series conveyors for belt tension and tracking adjustments
- The Seed Series 16 conveyor has a 5HP motor and a 16" wide WCCO rubber belt with 2" high cleats spaced every 7"
- The Seed Series 20 conveyor has a 5HP motor and a 20" wide WCCO rubber belt with 2" high cleats spaced every 7"
- 2" high single cleats allow conveyor to run at steeper angles with less rollback

SEED SERIES CONVEYOR OPTIONS:

- Collapsible hopper
- Seed ladder
- 24" re-bagging spout for conveyor
- Choose stand or undercarriage
- 65' electrical cord and plug
