

# SEED SERIES CONVEYORS

Designed with seed in mind, USC's SS16 conveyor gently moves seed without damage, and virtually eliminates spillage. Available in 25' and 30' lengths, multiple power and inlet hopper options, and choice of stand or undercarriage.

## FEATURES & ADVANTAGES

- 16" wide cleated belt; 5HP motors.
- 2" high cleats spaced every 9".
- 2,000 lbs./min. at 30 degree incline.
- 25' and 30' available lengths.
- 10" diameter discharge spout.
- Optional seed ladder.
- Manual winch to easily adjust height; optional electric winch.
- Adjustable undercarriage with self-locking winch.
- Undercarriage complete with automotive-type tires/wheels.
- Convenient cleanout door at inlet.
- Built-in tow hitch to easily transport.
- Enclosed frame reduces dust and spillage.
